SUMMARY

Electronics Engineer with expertise in programming, data analytics, and full-stack development. Skilled in Python, C, C++, SQL, JavaScript, HTML, and CSS, with experience in software and hardware projects. Passionate about problem-solving and innovation in technology-driven solutions.

PROJECTS

Vehicle Management System

- Developed a Vehicle Management System to efficiently track and manage vehicle data.
- Designed and implemented features for vehicle registration, owner details, and service history.
- Utilized Python/C/C++/SQL for database management and system logic.
- Designed a user-friendly interface for seamless access and navigation.

Expense Tracker

- Built a web-based Expense Tracker to help users monitor and manage their financial transactions.
- Implemented features for adding, editing, and deleting expenses with category-wise tracking.
- Developed a responsive interface with sections for Home, About, and Account pages.
- Used JavaScript, HTML, and CSS to create an interactive UI and dynamic data handling.
- Enhanced budget management by providing insights into spending patterns.

EDUCATION

Vidyalankar Institute of Technology Bachelor in Electronics Engineering CGPA: 7.5	Jun 2025
S.F.S College Seminary Hills, Nagpur Higher Secondary Certificate 91.33%	Feb 2021
St John's High School, Nagpur Secondary School Certificate 79.40%	Mar 2019

SKILLS

- Python programming.
- C & C++
- HTML, CSS
- Database management.
- Data Analysis & Visualisation.
- SQL
- MS Excel
- Machine Learning Fundamentals.
- Project Management
- Matlab

CERTIFICATIONS

- Artificial Intelligence from DeepLearning.AI
- HTML from SkillUp
- C & C++ from Disha Institute
- Matlab Certification
- NCC A Certificate
- Elementary & Intermediate Drawing Exam
- Data Analyst Skill path from Udemy

ACHIVEMENT/ACTIVITES

- Completed 2 years of service & attended 7 days NSS Camp.
- Achieved NCC A Certification with A Grade.
- Held the rank of Corporal.
